My signature certifies that all information contained herein is true and accurate, and the material described is properly identified, labeled and prepared as indicated. I certify that this waste to the best of my knowledge has not been diluted to reduce TENORM levels. I certify this waste does not contain any regulated radioactive materials, and that all known suspected hazards have been disclosed, and the waste is not a regulated hazardous waste as defined by federal, state or local authority. I also certify that all samples used for analysis of waste are representative of the materials described herein. I understand that all wastes may undergo inspection upon arrival at the facility and may be refused if the delivered material does not conform to the description herein. Notification will be provided immediately if there is a change in the composition or process generating this waste stream, prior to offering the waste for management by this facility.
